

Research Contributors 1979 / Sigma Theta Tau

Listed below are the more than 1,900 members from 91 chapters of Sigma Theta Tau who contributed to the Society's Nursing Research Fund during 1978. To all of those who contributed to this valuable project, the national officers extend their

thanks and appreciation. The new funds will go far in helping to carry out one of the major goals of Sigma Theta Tau. It is hoped that the 1978 contributors will continue their support and, hopefully, will be joined by new contributors during the new year.
